Invitation

Conferenceseries LLC is overwhelmed to welcome all the interested participants to its 6th World Congress on Addiction Disorder and Addiction Therapy during August 29-31, 2017.

The conference will be held in Prague, Czech Republic organized around the theme of “Innovating Advanced Technologies in Preventing and Treatment of Addiction”. Addiction Congress 2017 is an event that brings together active researchers, doctors, intellectuals, academicians, students, contributors and industrialists to exchange ideas, communicate and discuss research findings on new advancements in diagnosis and treatment of Addiction disorders.

Addiction Congress 2017 anticipates more than 500 participants around the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations. The attending delegates include Editorial Board Members of related OMICS Group Journals. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Experts. The intending participants can confirm their participation by registering for the conference along with your colleagues.

Avail the delegate early bird offer.

Regards,
Addiction Congress 2017 Organizing Committee

Date: August 29-31, 2017

Venue: Prague, Czech Republic

Market Analysis

Addiction Diagnosis, Treatment, Recovery and Rehabilitation business has been on rising in recent years. These businesses became profitable with more than 20% margin. This is because of the rapid developments in the field of addiction psychiatry which has pushed this business up. Addiction psychiatry believes in the use of drugs medications even if the drug is addiction problem.

Addiction word actually represented for only drinking and smoking habits only. But it includes a number of bad habits which are updating with the time. These are drug addiction, food addiction, marijuana and opioids, shopping addiction, the internet, sex and much more. The meaning of Addiction word changed with years, however, the answers for addiction treatment remained same. Even the scientists haven't got a proper answer which will help addicts to leave the addiction habits and helps to recover their health. There is a lot of research work is going on Addiction treatments and therapy but it is still in trial phase. Recently there was news for the Champix/ Chantix prescription medication which will help to get rid of the smoking habit. It is still not in the market but it created kind of idea about what will be the future addiction treatment options we can choose. Most of the pharmaceutical companies have started to find out medicines for addiction treatment. There is also a lot of research is going on combating addiction disorders of alcohol, cocaine, opioid, methamphetamine, cannabis and tobacco using new neuro-receptors/ peptides and antibody therapies. Around 280 million people in the part of America and Europe are at the danger of addiction habit of drugs for non-medical use. Because of these key factors, there is huge scope for pharmaceutical companies, doctors and researchers to find out the medications for this addiction disorders which will stimulate the growth of medications for addiction disorders.

On the other hand, addiction recovery and rehabilitation business started to boom. Rehabilitation centers provide outpatient care which is not provided by the governmental organizations. Rehab centers take personalized care for 24 hours. The duration of these types of rehab center starts from a month to even year. United States of America have around 14000-15000 rehab centers which did the business of \$35 billion in a year of 2014. If we consider the future of the rehab industry, there is no sign of decline. The difference in the facilities is the important factor which creates variation in the rehab services and based on that the addicts have to pay

Market Analysis

more money. Addiction patients don't hesitate to spend more money for the addiction treatments. There is the trend started to rise in the undeveloped countries. People started to go for the rehab centers which are located in the European countries. This ultimately increases the business of rehab industry.

Addiction therapy is also based on the recovery and rehabilitation concept which is treating people by keeping them busy in their hobbies or interests. These include music, dance, drawing, cycling and others. These therapy camps or programs have also surged in the recent years. Yoga is also the type of therapy which is popular in the world. Yoga retreat therapy alone does the business of \$ 27-30 billion in the USA in a year. People started to go yoga studios to end the addiction habits. These are all modern treatment and therapies gaining attraction in the recent years.

Conventional addiction treatments like medications, hospitalizations can't be replaced. World Health Organization (WHO) predicted that the mental illness is one of the important and growing reasons for the disability globally. Depression and anxiety are the top cause of mental illness. To combat with this surge in the future mental health facilities will prioritize mental health facilities to treat and prevent mental illness. Addiction of alcohol or different drugs is the key reason for the CNS and brain disorders. These also add disorders like depression, schizophrenia, anxiety, personality disorder, epilepsy, psychosis and much more. Therefore, it is the responsibility of the science community to plan and execute the research experiments in the field of addiction diagnosis and treatment.

Alcohol and illegal drug addiction treatments cost European people more than 7.6 billion euros per year. Brain disorders caused by addiction cost 500-700 billion euros for Europe. Europe spends 212.6 billion euros per year for the addiction induced neurological disorders. Anxiety and psychotic disorders cost 76 billion euros to Europe. There is 165 % growth has been seen in the clinical research and development in the area of addiction treatment medicines.

Addiction Congress 2017 Salient Features:

- **Addiction Congress 2017** Conference website is attracting 25000+ **Addiction Specialists** visitors ranging from Physicians, Practitioners, Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.
 - **Meet Academia and Industry** visionaries to get inspired
 - **Expand your knowledge** and find solutions to problems
 - **Knowledge, Benchmarking and Networking** offered at one place
 - **Forge connections** and for global networking
 - **Highly Organized** and Structured Scientific programs
 - **Poster presentations** and world class exhibitions
 - **Meet with new vendors** and suppliers

How we stand different from other Conferences:

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Date: August 29-31, 2017

Venue: Prague, Czech Republic

Speakers Representation from Top 25+ Countries

USA & AMERICAS

USA | Brazil | Canada | Mexico

ASIA-PACIFIC

Australia | China | India | Hong Kong | Indonesia | Japan | Malaysia | Thailand
New Zealand | Philippines | Singapore | Taiwan | South Korea

EUROPE & MIDDLE EAST

Austria | Denmark | Finland | France | Germany | Italy | Netherlands | Norway
Poland | South Africa | Spain | Switzerland | Turkey | UAE | UK | Ukraine

Target Audience

- Professors and Researchers
- HOD's of Neurology
- Neurologists
- Directors and Executive Directors
- Psychiatrist
- Mental Health Professionals
- Clinical Staff
- Addiction Prevention Specialists
- Substance Abuse Experts
- Addiction Rehabilitation Experts
- Medical Professionals

Students from Academia and Researchers in the field of Neurology and Mental Health.

The field of Addiction diagnosis and treatment is growing rapidly and its development is making tremendous impacts in Addiction Research and Pharmaceutical industries. The importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Addiction Congress 2017

- Opportunity to attend the presentations delivered by eminent scientists from all over the world
- Selected contributions will be published in following OMICS International Journals
 - Journal of Addiction Research & Therapy
 - Journal of Alcoholism and Drug Dependence
 - Journal of Psychology & Psychotherapy
- Participation in sessions on specific topics on which the conference is expected to achieve progress
- Global networking: In transferring and exchanging Ideas
- Conference brings together Researchers, Business Entrepreneurs and Industry Developers.

Conference Highlights

- Alcoholism and Addiction
- Substance Abuse
- Drug Addiction
- Marijuana and Opioid Addiction
- CNS and Addictive Disorders
- Addiction Induced Brain Disorders
- Depression and Anxiety Disorders
- Behavioural Addiction
- Approaches for Addiction Treatment
- Dual Diagnosis
- Addiction: Pharmacology
- Addiction Psychiatry and Mental Health
- Addiction and Behavioural Studies
- Addiction Therapy
- Addiction Rehabilitation & Recovery
- Addiction - Case Report Studies

Venue

Prague, Czech Republic

Prague is a very popular tourist destination. Main attractions include the Prague castle, the Charles Bridge, old town square with the Prague astronomical clock, the Jewish quarter, petrin hill and vyserad. The city boasts more than ten major museums, along with numerous theatres, galleries, cinemas, and other historical exhibits.

Prague is classified as an “Alpha-” global city according to GAWC studies. Prague ranked sixth in the trip advisor world list of best destinations in 2016 its rich history makes it a popular tourist destination, and the city receives more than 6.4 million international visitors annually, as of 2014. The regional city of Prague is an important centre of research. It is the seat of 10 public research institutes, four business incubators and large hospitals performing research and development activities such as the Institute for Clinical and Experimental Medicine in Prague or the Motol University Hospital.

As of 2008, there were 13,000 researchers (out of 30,000 in the Czech Republic, counted in full-time equivalent), representing 3% share of Prague’s economically active population. Gross expenditure on research and development accounted for €901.3 million.

Addiction Congress 2017 welcomes you to the exciting city of Prague!
